

The first few years of teaching can be the most fulfilling, exciting and rewarding. They can also be the most overwhelming. The Early Career Teacher Program is designed to support teachers in the first few years of teaching to thrive in their profession. It supports them in continuing their learning and teaches them to maximise the benefits of being mentored and reflect on their performance.

The only program to offer an entire year of support for Early Career Teachers

This program includes a full day workshop, ongoing support / advice and monthly publications for the entire year on topics such as effective classroom management, working with parents, supporting your well-being, understanding the APST and registration transition, working effectively with a mentor and many more.

Each early career teacher is supported personally and professionally as an individual.
